

# GRANDA KOPYTKO

CAPE PRESIDENT

Hi, I'm Granda and I would like to be CAPE's next President. I believe unions are important. In 2015 I became a CAPE steward, and in 2018 a Director on the National Executive Committee. CAPE deserves a president who is strong, responsive and skilled in negotiation. I am that person.

I know CAPE very well. I am Chair of the Equity, Diversity and Inclusion Sub-Committee and Co-Chair of the Digital Disruption and Transformation Sub-Committee. I am also a member of the new Interim Finance Committee.

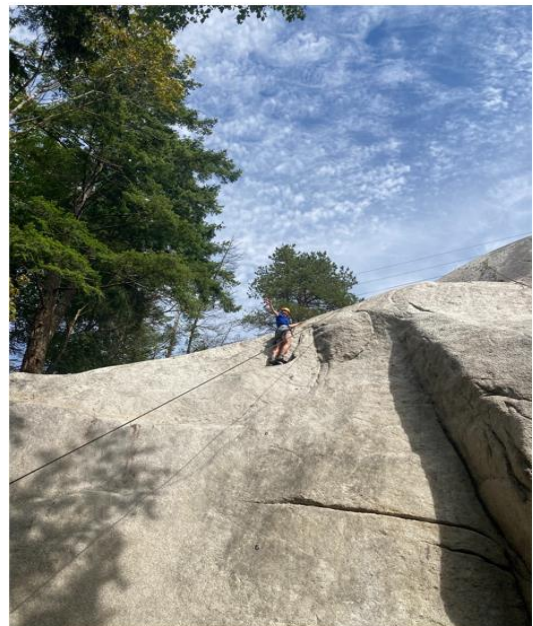

Many CAPE members have contacted me, expressing frustration in their attempts to receive services. When people call CAPE they need help promptly. If elected, I commit to creating and implementing service standards.

CAPE lacks transparency. Recently I attended the Special General Meeting on CAPE's deficit and proposed budget.

I was dismayed as many questions were not answered. If elected, I commit to more transparency and to creating a committee to determine where roadblocks to member engagement exist, and how to remove them.

We need to plan for our future. Hybrid work has brought new stresses. Also, the implementation of many new data and digital policies means that the expectations for our work are about to change. You need someone knowledgeable about these issues and I am that person.

On a personal note, I work as an Evaluator and a Data Policy Analyst. I hold a M. Sc. and a Graduate Diploma in Program Evaluation. I play a variety of sports and occasionally write articles for the Ottawa Citizen.

Thank you for your consideration.
