

The petition text reads as follows:

"We, the undersigned regular members of CAPE, request that a Special General Meeting be called pursuant to Article 32.1 of the CAPE Constitution. The purpose of the meeting is to consider a motion concerning voting access for the impasse/dispute resolution process.

The motion to be considered is as follows:

That all eligible members of the affected bargaining group be given electronic access to the vote, regardless of whether they attended any information session, Special General Meeting, town hall, or presentation;

That CAPE not notify the FPSLREB of the chosen dispute resolution process nor give notice to bargain collectively until the extended voting period has closed and the results have been verified, unless legal counsel confirms in writing that doing so would create a material legal or statutory risk.

Nous, membres réguliers soussignés de l'ACEP, demandons qu'une assemblée générale extraordinaire soit convoquée conformément à l'article 32.1 de la statuts de l'ACEP. L'objet de la réunion est d'examiner une motion concernant l'accès au vote pour le processus de règlement de l'impasse ou du différend.

La motion à examiner est la suivante :

Que tous les membres admissibles du groupe de négociation touché aient accès au vote électronique, qu'ils aient ou non assisté à une séance d'information, à une assemblée générale extraordinaire, à une assemblée publique ou à une présentation;

Que l'ACEP n'avise pas la CRTESPF du choix du mode de règlement des différends ni donne d'avis de négocier collectivement avant la clôture de la période de vote prolongée et la vérification des résultats, à moins qu'un avis juridique confirme par écrit que cela créerait un risque juridique ou statutaire important.
